

Task Management System

- The Task Management System (TMS) is a sophisticated, centralized platform to optimize task management processes, enhance streamline approval workflows. By addressing challenges such as limited visibility and inefficient communication, TMS ensures timely task delivery and helps in effective collaboration among teams.

Purpose

- Enable task plan submission and management.
- Streamline manager review and approvals.
- Provide real-time task visibility and analytics.
- Support data-driven incisive decisions.

Key Objectives

- Real-time task and team performance visibility.
- Efficient task and approval workflows.
- Enhanced communication via notifications.
- Secure role-based access.
- Actionable insights via reports/dashboards.

System Capabilities

- Real-time task tracking with visuals.
- Structured approval workflows.
- Automated alerts for actions/deadlines.
- Secure, scalable system with role-based access.

Core Functionalities

1. Task Management

- Create and assign tasks with specific parameters.
- Monitor task progress with status indicators and milestones.
- Manage task lifecycle from creation to completion, with archiving.

2. Action Plan Management

- Employees submit daily task plans with timelines.
- Track plan statuses (e.g., Started, In Progress, Completed, Under Approval).
- Managers review, approve, or reject plans with feedback.

3. Approval Workflows

- Employees submit task completion requests.
- Managers review requests, approving or rejecting with comments.
- Automated notifications for pending actions and updates.

4. Reporting and Analytics

- Generate reports on task progress, team, and individual performance.
- Export data in PDF, CSV, or Excel formats.
- Role-specific dashboards with key metrics.

Benefits

Managers can easily review with less paperwork, clear team reports, and quick fixes for delays. Employees get clear tasks for better focus, visible recognition of their work, and fast, helpful feedback.

1. Open Banas Setu and in Service Projects click on this to open the Login Portal of Task management System

The screenshot shows the Banas Dairy Setu dashboard. On the left, there's a vertical sidebar with various menu items: Home, User Guide, Documents, Service Projects (which is currently selected and highlighted in blue), General, SAP BI Report, Rainfall Status, and Banas FoodLand. To the right of the sidebar is a main content area. In this area, there's a list of management systems: Task Management System, KPI Management System, PTL (Material Management System), New Inward-Outward, DCS Portal, and Service Renewal. The 'Task Management System' item is highlighted with a red border and a red arrow points from the top right towards it. At the top right of the main content area, there's a 'Contact Details' button.

2. Open web browser and type the following IP- 10.40.0.33:3002 in the address bar and press enter key to redirect to the login portal of Task Management System.
